

Factor VIII Concentrates Currently Available for the Treatment of Hemophilia A

- Plasma Derived
 - Hemofil M (Baxter BioScience)
 - Monarc-M (Baxter BioScience/American Red Cross)
 - Monoclata-P (CSL Behring)
 - Alphanate (Grifols Biologicals)
 - Humate-P (CSL Behring)
 - Koate-DVI (Kendrion)
- Recombinant
 - Advate (Baxter BioScience)
 - Helixate FS (CSL Behring)
 - Kogenate FS (Bayer)
 - Recombinate (Baxter BioScience)
 - Xyntha (Pfizer)
